

BALKRISHNA KATAKWAR

Korba, Chhattisgarh, India

+91-7389172739 | balkrishnakatkwar123@gmail.com | linkedin.com/in/balkrishna-katakwar-395628227 | github.com/Katakwar123
Motivated Computer Science final-year student with a strong foundation in Frontend and Full Stack Development (HTML, CSS, JavaScript, React.js, Node.js, Flask). Skilled in building responsive UIs, API integration, and applying ML concepts to real-world projects.

Education

Amity University <i>Bachelor of Technology (B.Tech) in Computer Science Engineering</i> • Current Status: 4th Year • Key Coursework: Machine Learning, Full Stack Development, Data Structures.	Expected 2026 <i>India</i>
DDM Public School <i>Senior Secondary (Class XII, CBSE) Secondary (Class X, CBSE)</i>	2020 – 2022 <i>Korba, Chhattisgarh</i>

Experience

Vigsia Incelerate Futurec Ventures Pvt Ltd <i>Full Stack Developer Intern</i> • Worked on full-stack development modules, implementing API-driven backend services and UI enhancements for enterprise-grade applications. • Contributed to scalable application features by optimizing database integration, improving frontend responsiveness, and refining user workflows. • Collaborated with cross-functional teams using Git for version control and Agile-style task tracking.	June 2025 – August 2025 <i>Remote, India</i>
AON Digicon LLP <i>Web Development Intern</i> • Built responsive web pages using HTML, CSS, JavaScript, and Bootstrap, ensuring cross-browser compatibility across devices. • Integrated third-party APIs and collaborated with the development team on landing page architecture and UI components.	June 2024 – July 2024 <i>Remote, India</i>

Projects

EduVista – AI Smart Attendance System Lovable Dev, Luxand Cloud API, IoT, RFID • Developed an AI-powered smart attendance system using facial recognition and RFID-based authentication for automated attendance management. • Integrated real-time attendance tracking, centralized dashboard monitoring, and smart verification workflows for educational institutions.	2025
Ola Database Analysis Excel, Tableau, Python, SQL • Performed data analysis on ride datasets to identify demand trends, customer behavior, peak booking hours, and pricing insights. • Built dashboards and reports in Excel, Tableau, and Python to support data-driven decision-making and revenue analysis.	2024
Diabetes Prediction Model Machine Learning, Python, Pandas, Scikit-learn • Created a predictive ML model to forecast diabetes likelihood based on diagnostic dataset features using Python data libraries. • Applied data preprocessing, feature scaling, and model evaluation to improve prediction accuracy.	2024
Text-to-Speech Translator JavaScript, Web Speech API, MyMemory API • Developed a multilingual translation and text-to-speech web application using the Web Speech API and MyMemory API. • Implemented language selection, voice output, and a clean responsive UI for accessibility-focused use cases.	2024

Technical Skills

Languages: Python, C, C++, JavaScript, SQL
Web Development: HTML5, CSS3, React.js, Node.js, Flask, Bootstrap
AI / ML & Data: Machine Learning, Artificial Intelligence, Pandas, Scikit-learn, Power BI, Tableau, MS Excel
Databases & Tools: MySQL, Git, GitHub, VS Code, REST APIs

Certifications & Activities

- Machine Learning using Python – Udemy (Certification).
- Active contributor on GitHub – maintaining personal projects in Web Development and Machine Learning.
- Self-driven learner exploring AI, IoT, and Full Stack Development through hands-on academic and personal projects.
